1. **The Nazi-ization of America - September 11th and the Reign of Government Terror to Follow!**

Look out over any parking lot and all looks peaceful. All looks normal. Then stop and look again and there they are - American flags flying from 10 maybe 20 or even 30% of the cars. United We Stand for slaughter. For the last couple of years, I have been speaking about pre-Nazi America and The Liberty Dollar by <http://www.libertydollar.org> and the current "good times" of that we were in. Now we must address the evolving picture of the "bad times" that the government has prepared for us - with the consent of 80% of the people. Of course, this is simple to understand for those of us who are familiar with the "Hegalian Principle" of action/reaction/solution.

Quite simply, "our" government, in concert with England - our traditional enemy and most other one-world governments have been directing history while growing into a ruling class and by choosing what to allow or even direct to happen as a means to gain total control over its citizens and all their money. Dating back before the Declaration of Independence and referred to as the "Rothchild Formula" by G. Edward Griffin in *The Creature from Jekyll Island*, there is a clear record of the Hegalian Principle from the sinking of the Lusitania in 1915, through the Stock Market Crash of 1929, The Great Depression, Pearl Harbor, Vietnam, Kennedy assassinations, Oklahoma City bombing and the recent terrorist attacks of September 11th. It is enough for anyone to cry out, "Why don't we have peace?!"

Now we are being sold "America's New War". Now our once great country, home of the brave and land of the free are being sold into being the world's largest warmonger. And gleefully 80% of the dodo American public have bought into this, are flying flags and can't wait to 'get even'. So what is the problem? Where is my patriotism? It is simply, that just as Oswald did not kill Kennedy, the facts of September 11th are not as they appear to be as presented from the government controlled mainstream media.

The simple truth is that it is all just a ploy, much like Oswald. It makes me sick. And for saying

it, I may be silenced. Not that there are not others out there telling the truth, but with today's passage of the anti-terrorist bill, contemptuously known as the USA-PATRIOT Act, it is becoming increasingly obvious that we are witnessing the Nazi-ization of America and that the decimalization of real patriots may not be far away.

The first paragraph of *The Miami Herald* heralds: "With the threat of anthrax lingering over them, senators overwhelmingly approved legislation giving federal law enforcement broader powers to wiretap phone, track Internet traffic and examine private financial and educational records in the hunt for terrorists." And what is their definition of a "terrorist"? You, me or anyone who the government wants it to be. This is Nazism clear and simple. And it was Martin Luther King, Jr. who urged us to, "Never forget that everything Hitler did in Germany was legal." It is the same with our government today.

And if there is any doubt about it starting, *The Miami Herald* continues by quoting Attorney General John Ashcroft as he vowed to swiftly use his new powers and declared, "A new era in America's fight against terrorism...is about to begin." In truth, the 'anti-terrorist act' is nothing more than a major anti-American assault on the people because the government did not do their job of protecting the national security of the people in the first place. And because they choose not to do the job that they took an oath to do - they now plan to rob us of more liberties for a false sense of security. As Benjamin Franklin said, "Anyone who gives up liberty for security deserves neither."

Of course, history is not without precedent. Two thousand years ago, Cicero coined the maxim, *Inter arma silent leges* - in times of war, the law is silent. And during the War between the States (yet another war fostered by the banksters for profit), Abraham Lincoln, the father of the unconstitutional Legal Tender Laws, suspended the writ of habeas corpus - the so-called "great writ" that keeps government from throwing people in jail at will. So now we have William Rehnquist, the chief justice of the Supreme Court stating (with a certain amount of glee) in his recent book, *All the Laws But One*, "Without question, the government's authority to engage in conduct that infringes civil liberty is greatest in time of declared war."

And as we all know, "war" is the "finest hour" for any government. It also provides the greatest business opportunities for the international banksters. Or as my mentor, Murray Rothbard said in [Anatomy of the State](#), "In war, State power is pushed to its ultimate, and, under the slogans of 'defense' and 'emergency,' it can impose a tyranny upon the public such as might be openly resisted in time of peace. War thus provides many benefits to a State, and indeed every modern war has brought to the warring peoples a permanent legacy of increased State burdens upon society."

The current criminal government, that is 'hiding in plain sight' as my friend Pat Shannon calls it, is guilty of treason and that is obvious to anyone who wishes to pull back the curtain, remove the blinders or take a look at the sites below. Just remember what Cicero told us 42 years before the Birth of Christ, "A nation can survive its fools, and even the ambitious. But it cannot survive treason from within. An enemy at the gates is less formidable, for he is known and carries his banners openly. But the traitor moves amongst those within the gate freely, his sly whispers rustling through all the alleys, heard in the very halls of government itself. But the traitor moves amongst those within the gate freely, his sly whispers rustling through all the alleys, heard in the very halls of government itself. For the traitor appears not a traitor; he speaks in accents familiar to his victims, and he wears their face and their garments, and he appeals to the baseness that lies deep in the hearts of all men. He rots the soul of a nation, he works secretly and unknown in the night to undermine the pillars of a city, he infects the body politic so that it can no longer resist. A murderer is less to be feared."

I am sick. The grief for the loss of the ideals that our once great country embodied is all but unbearable. If this article hits home for you, please forward it to someone you know and hopefully sponsor another NORFED Redemption Center as our last peaceful, positive way to return America to value – one Liberty Dollar at a time. Tell them to get ready for the Nazi-ization of America and a reign of terror, the like of which this country has never seen. Tell them to get out of government money, seek privacy at all costs and buy silver to stave off the rainy days/years ahead. God save America because we now know the current criminal government is guilty of treason and clearly against the people.

And remember – everything that Hitler did was legal!

When I want the real story I usually reach outside of the mainstream media and seek the writing of individuals like these writers. Please review each link as each one brings a unique focus to the current situation. And some articles like *Who Benefits from the World Trade Center/Pentagon Attacks?* may start out slow, so do not be deceived by anything that you read. Always check and re-check the facts until there is not a shadow of a doubt. Then act in your own best interest:

2. **Get Your Money Out of Government Money**

The title is the message. Get out of government money and get into silver. I was paying more for silver in 1974 Dollars than you can now with 2001 dollars. I don't know what that works out to be but it must be close to the \$1.29 per ounce that was the historical price up to 1965 when the government defaulted on their obligation on the Silver Certificates and removed silver from the circulating coinage. I personally consider silver to be the single best investment possible. And although the silver backed Liberty Dollar and the Silver Liberty are not investments they are useful in trade and make an excellent addition to any insurance package to protect your family and your money. Additional information can be gained by calling NORFED at 888.421.6181.

3. **Message from G. Edward Griffin regarding NORFED**

For those who have switched their Redemption Center over to the new database by re-registering for the new Affiliate Program, THANK YOU. For those who have not please note the advantages of participating in this upgrade by calling NORFED at 888.421.6181 or email michelle@libertydollar.org When you go to the new page about Redemption Centers, please note we have added a message that appears on Ed Griffin's site for his Redemption. It is the default if you do not create your own personal statement when re-registering for the Affiliate Program.

On page 573 of *The Creature from Jekyll Island - A Second Look at the Federal Reserve*, I wrote that, before we could abandon Federal Reserve Notes (FRNs), we first had to be able to convert them into real money. I said: "That means we must create an entirely new money supply which is 100% backed by precious metal; and we must do so in a reasonably short period of time." Well, you have to be careful what you recommend, because Bernard von NotHaus, the Senior Economist at NORFED, did exactly that. And although I initially thought there were too many obstacles, to my surprise, the more I studied the details of his plan, the more convinced that **by Jove, it just might work!** The Reality Zone is a Redemption Center, and I urge you to get in on the ground floor and join this growing group of concerned Americans as a Redemption Center now.

4. **East Coast Freedom Rally**

For 3 consecutive years Freedom Law School has conducted successful Freedom Rallies in California. Now, we are answering the call of our friends in the East and South and putting our FIRST [East Coast Freedom Rally](#) in Washington DC area on the weekend of November 3rd and 4th.

Given the roasting that Peymon just received from Devvy Kidd for not updating the information about the changes for the speakers at this year's conference and the "threat" of anthrax in the DC area, I think this should be an interesting Rally. As many of you may remember Ms. Kidd has a reputation of "My way or no way" and has not been very friendly towards NORFED after I called her on her number a couple of years ago. I will be speaking and invite you to come see

the fireworks and get some good info too. The updated info follows below.

Among our fabulous line of speakers are:

General Benton Partin, the retired ammunition and explosive U.S. Government General who will share: Why the Murrah Oklahoma Federal Building was blown up by bombs INSIDE the building, not by Timothy McVeigh or any one else on the outside; how the World Trade Center buildings in New York came down; and who are the people behind these attacks who are determined to take away our freedoms and enslaving us to their will!

Bill Still, expert historian on the subject of central banking, and the Federal Reserve Banking System. Mr. Still is the author of the Money Masters video that is the BEST explanation of the history and development of how the International Banksters enslaved the American People and how we must free ourselves of their grip. The subject of his speech is on the same subjects.

Charles Key, Former Oklahoma State Representative and currently the executive director of the Fully Informed Jury Association (FIJA). Mr. Key was the force behind forming the Oklahoma grand jury that was charged with investigating the Oklahoma Federal building bombing. Mr. Key will release the conclusions of a citizen's investigation committee about this tragic event. Mr. Key will also share how protecting our rights and liberties depends on fully informed juries.

Whitey Harrell, a soft spoken post office worker who an Illinois jury unanimously acquitted him of "not filing state tax return" charges. His preparation and hard work exposed the fraud of the income tax system and protected his freedom. Awesome story!

Steve Hempfling, Director of the Free Enterprise Society (FES). FES over the last 15 years has had over 20 WINS over state taxing agencies and the IRS for "not filing income tax return" charges. That is over 2/3 of the cases that they handled. No freedom organization comes close to having such an enviable track record. You will hear how they did it and how you may do the same for under \$1 per day!

Paul Ballmer, A graduate of Freedom Law School, who won over \$337,000 jury verdict over the California Franchise Tax Board (FTB). FTB is far more aggressive than the IRS and Ballmer's victory over them is even more impressive. You can be a winner like Ballmer too. Hear from Paul Ballmer how.

Bernard von NotHaus, Senior Economist for NORFED - National Organization for Repeal of the Federal Reserve and the Internal Revenue Code. NORFED distributes The Liberty Dollar - a most unique competitive currency to the evil Federal Reserve System. You will want to find out and take part in this dramatic way to rid us of the evil international banksters.

Rich Diamond, the successful real estate investor, will show you how to get out of "patriot poverty" by making a bundle of money buying and selling real estate, with no money, no credit, no license, no regulation and without having to beg for a bank loan. This stuff really works!! Don't miss Rich Diamond's speech.

Peymon Mottaheseh, President of Freedom Law School (FLS), the Jewish Iranian Born American whose relatives were tortured and executed by the crooked "Islamic" government of Iran. Peymon will share what YOU can do NOW to restore freedom for yourself, your family and America, by simply knowing and asserting your rights on our public servants. Winning and living free can be a lot of fun. Come and hear how.

More speakers will be announced very soon!

We invite you to share this invitation with like-minded individuals that you know. Let's work together to restore freedom and justice for all Americans. This Rally will bring YOU 10 of the most knowledgeable and experienced movers and shakes of the Freedom Movement under one roof for expanding YOUR enlightenment, enjoyment, peace, freedom and prosperity.

Your investment in this fabulous Freedom Rally is only \$80 single or \$120 couple if you pre-register by November 1st (received at Freedom Law School). At door prices are \$100 single and \$150 couple. Under 21 year olds are admitted FREE. The Saturday evening dinner banquet is \$40 per person. The Rally hours are: Saturday at 9 AM till 5 PM and Sunday from 9 AM till 4 PM. Saturday Evening Banquet with General Partin begins at 7 PM.

6. **Metcalf's Law: The value of any network**

METCALF'S LAW: a network is only as valuable as it has users. And the value of a network increases exponentially with the number of users. If we are to win this battle between the common man and the elite who strive to further enslave us to their system, we must join together around one common focus. NORFED considers that focus to be something that is common to all of us. Something that we all use, daily. Something that "they" use to enslave us. For NORFED, that focus is money. NORFED came into being to provide an alternate to the current manipulated monetary system. As Metcalf's Law dictates, it increases exponentially with the number of users. Or as my friend, Bob Dylan said, "You are either busy liv'n or busy die'n". Please keep up the great effort by sharing The Liberty Dollar with someone today and sponsor them to become a RC tomorrow.

7. **Personal note and a small coincidence about September 11th**

In a very small personal way, I noted while researching my original *Economic Research Paper* that radically changed my life some 27 years ago that it was dated, September 11, 1974.

Many thanks again for your continued support and efforts to return America to value - one Liberty Dollar at a time. Without you, success is not possible in our lifetime. Thanks!
