4. NORFED 753 vs. Federal Reserve 46
5. Value of the Dollar in 1914
6. Most Active Affiliate
7. Affiliate Link for Non-web Site Owners
8. G. Edward Griffin new book, Chapter One
9. Question of the month
- 10.Redemption Center of the Month
- 11.Quote of the Month
- 12.Discover Frederick Hayek and Private Money
- 13.Hitler was elected too...

1. **Wanta run NORFED? Executive Director wanted**

Please don't get this important message wrong. NORFED continues to "kick ass". And yes, all the gold and silver is still in the warehouse. All is well. And although it is doing well, it is not doing as great as I know it could. As a businessperson for almost 30 years and the "Senior Economist" since the introduction of The Liberty Dollar over three years ago, I know NORFED could be doing more than it is. I also know the problem. The problem is I. Currently, NORFED is suffering from inadequate planning and the lack of guidance from a full time executive. The simple truth is that over the past three years of "retirement", my schedule has simply caught up with me and NORFED suffers because of it. I simply do not have enough time for my family, business interests and other commitments that I have been shorting for too long. Because of this "simple truth" and because NORFED's mission is bigger than I am, I hereby openly launch our search for an Executive Director. I encourage you to share this search with your friends, email lists, newsgroups, web sites and anyone you may consider to be of interest in this.

General Info: Due to NORFED's decentralist philosophy, the Executive Director is not required to live in Evansville. Nor is there any traveling required of the ED unless desired. I will continue to support NORFED and the Executive Director as the Senior Economist, speaker, hired gun and torch bearer for a value backed currency to bring about a fundamental change to the current manipulated monetary system by the Federal Reserve and the Internal Revenue Dis-service.

Specifics:

Executive Director must be a self-starter and a doer.

Proven track record in marketing, promotion and/or sales

Committed to the same political and monetary ideals as NORFED

Full time, minimum of 40/wk, with a totally flexible schedule.

Could work from home, but must live in the United States

Must be computer literate and possess the techno skills this age requires

No formal training in economics or politics is required

Paid position. Salary is results driven and commensurate on experience.

Salary should be well over \$5000 cash per month, no withholding

Three month trial period prior to permanent position

Does not have to be a Redemption Center to apply for position

Must be in good health and possess a positive mental attitude

Duties:

Business manager

Turn a profit for NORFED that can be used towards its goals

Manage cash flow, projections, and review monthly financials

Generate 100 to 150 new Redemption Centers per month

Write monthly newsletter, press releases, interviews, etc.

Organize conference calls, radio interviews, and follow up leads

Grow the organization into strategic relationships with other groups

Negotiate national and international promotional campaigns

Interact with the National Fulfillment Office in Evansville, Indiana

Continue to market the NORFED Solution and its hope for the future

Develop, track, and review profitability of all marketing plans.

Report directly to the Board of Directors

Ideal Candidate:

A retired yet energetic advertising executive who wants to make a difference. Someone who realizes that we are in a marketing war and seizes upon the uniqueness of issuing money as a proactive, non-violent weapon to return America to value one Liberty Dollar at a time. Someone who doesn't need the job but is committed to it because NORFED presents such a unique opportunity and wants to do it.

Please send inquires or resume' to me at: Bernard@libertydollar.org. I will acknowledge receipt and get back in touch with you upon a review of the info you send.

2. **Regional Directors wanted too**

Have you been active or want to get more active with The Liberty Dollar? We are looking for those special individuals who want to be a "Regional Director" for the state or area where they

live. No duties, etc. have been ascertained at this time, although the RD position would be a voluntary, unpaid position. If you are interested, please contact Michelle@NORFED.org.

3. **F*R* non-exclusive! Visa and MC to issue \$\$\$**

As amazing as it may seem, I recently received information from a reliable source that reports that Visa and MasterCard won a recent court decision against the Federal Reserve. The court rules that the F*R* does not have an exclusive to issue the US Dollar. Much along the lines that Greenscam has testified that the F*R* can not do their job of manipulating the economy (as they think they should) because of all the "dollars" that are created by credit cards, etc. I think this is earth-shaking news, but this is all I have. So PLEASE do not email me asking for more info. If you have anything akin to this, I would welcome your info.

4. **NORFED 753 vs. Federal Reserve 46**

New score board. Recently, I did a search on Yahoo.com for "Federal Reserve" and found 46 sites. Most of the sites are about the 12 regional banks (guess where the idea for Regional Directors came from?). Three out of the 46 are negative sites. So then I did a search for "NORFED" on Yahoo.com and WOW! 753 Sites!!! Is this is sign of the new vs. the old? Are we winning and don't know it yet? Well, we sure hope so. In reality, a lot of the sites are the results of NORFED articles initiated by Redemption Centers and the new Affiliate Program. If you have not signed up for an Affiliate number or asked your local newspaper about an article, please do so. MORE IMPORTANTLY, if you do not list "NORFED" as a "meta" word for your site, please add it and lets see the score go to 1000 to 46! Of some note is Frederick Hayek, noble laureate, private money supporter and subject of Article #12, he has 169 sites on Yahoo.com.

5. **Value of the Dollar**

My thanks to Mike Heit, noted RC, friend and Vietnam Vet. A 2001 dollar would have bought \$16.46 back in 1914. Amazing! The first Federal Reserve Notes that were issued in 1914 after the Act was passed in 1913, were 100% backed by gold and payable to the bearer on demand. Now they are backed by our country's military might. A very sorry state of affairs. And with our new perpetual "war" it is going to get worse. A lot worse.

1914 \$16.46

1920 \$8.31

1925 \$9.50

1930 \$9.95

1933 \$12.13 *FDR stole the gold and abandoned the gold standard*

1940 \$11.87

1945 \$9.23

1950 \$6.90

1955 \$6.20

1960 \$5.61

1965 \$5.28 *Silver coins are abandoned and Silver Certificate are repudiated in 1968*

1970 \$4.28

1975 \$3.09

1980 \$2.02

1985 \$1.54
1990 \$1.27
1995 \$1.09
2000 \$1.00

6. **Most Active Affiliate**

Mike Cline of Mike's Coin Shop is this month's most active Affiliate. The interesting story here is that when I stopped by to visit with Mike in Indianapolis, he had not gotten a Newsletter for months and did not even know that Redemption Centers get \$100 for each RC they sign up, etc. Congratulations & Thanks, Mike!

7. **Affiliate Link for Non-web Site Owners**

Don't have a web site and still want to publicize and track your referrals? Now this can be done by adding the "link text" below to your emails. Just add this to your "signature" or even add an Affiliate Banner to all the emails that you send. Easy, automatic and rewarding too. [FED UP with the government greenbacks? Check out NORFED alternate gold and silver Liberty Dollar.](#) **Important:** You need to sign up in the new database as an Affiliate before you do this. If you have any questions, please email truth@libertydollar.org.

ALSO: Need a web site? Eric Fether/RC provides sites for fellow Redemption Centers for ONLY \$5! Check it out at: www.silverbacked.com.

8. **New book by G. Edward Griffin, Chapter One**

For those who may not be aware of it, G. Edward Griffin, noted author of *Creature from Jekell Island*, fellow Redemption Center and friend, is writing a new book which may be the last of his 40 year career. Ed just published *The Grand Deception*, which is the first chapter in his forthcoming book, *The Freedom Manifesto*. In keeping with Ed's quest to remain current in an ever-changing environment of publishing, Ed's new book will be published on line. More importantly, *The Freedom Manifesto* is a combination of his forty years of work in support of freedom and is your introduction to both The Freedom Academy and its support group, The Freedom Force. Please join me in reading this unfolding story by clicking on this link for Chapter One: <http://www.realityzone.com/granddeception.html>. I not only hope you will enjoy it, I hope you will follow it and join The Freedom Force to restore America to the country that our Founding Fathers defined by the Declaration of Independence and the US Constitution.

9. **Question of the month**

Since NORFED is non-profit, is it a "501 (c) (3)"? Nope! Nor would it ever be. First, it would be rather parenthesis for NORFED, which is opposed to the lying IRS, to ask them to be classified as "non-profit". Second, non-profit organizations only need the 501 if they file and accepts donations. Neither of these reasons are applicable to NORFED. And third, organizations do not need a 501 to be "non-profit". Currently, NORFED is a non-profit corporation chartered in Nevada and uses 100% of its income towards its educational mission to bring about the repeal of the Federal Reserve and the IRS, just like our name.

10. **Redemption Center of the Month**

Recently, I appeared at East Coast Freedom Rally just outside of Washington DC presented by the Freedom Law School. It was yet another quality event organized by Peymon Mottahedeh.

And although it did not have some of the speakers, it did feature a good collection of speakers including Willis Carto, Bill Still and Steve Hempfling. So it is time to acknowledge Peymon for his outstanding efforts and name him the Redemption Center of the month. Thank you Peymon for your many efforts!

11. **Quote of the Month**

"They that give up essential liberty to obtain a little temporary safety, deserve neither liberty nor safety." Ben Franklin

12. **Discover Frederick Hayek and Private Money**

For anyone not familiar with Frederick Hayek, the American Nobel Laureate and modern pioneer economist in support of competing private currencies, I strongly encourage you to search him out on the net. For example in, *Choice in Currency: A Way to Stop Inflation*, Hayek explains why private money such as The Liberty Dollar makes sense for both the consumer and business. "There is no reason whatever why people should not be free to make contracts, including ordinary purchase and sales, in any kind of money they choose, or why they should be obligated to sell against any particular kind of money. There should be no more effective check against the abuse of money by government than if people were free to refuse any money they distrusted and to prefer money in which they had confidence." Wow, that's saying it the way it is, or should be!

13. **Hitler was elected too...just like Bush...**

Many thanks again for your continued support and efforts to return America to value - one Liberty Dollar at a time. Without you, success is not possible in our lifetime. PLEASE SPONSOR A NEW REDEMPTION CENTER TODAY. Thanks!

Bernard von NotHaus

Editor/Senior Economist
