February 13, 2003

NORFED Redemption Center (RC)s have, particularly in the last year, become extremely creative in how they present Liberty Currency to merchants. They have also been sharing their ideas and successes with one another through email, phone calls and postings at www.norfed.org. The result is an explosion in the number of merchants who will take Liberty Currency and the variety of goods and services they have to offer. Steve Kerp from North Carolina is NORFED's RC for the month of February for producing the following list of Liberty Currency successes. With every new merchant who agrees to take Liberty Currency comes increased competition to the Federal Reserve.
